

MüllerGarden

20V / 2.0Ah Li-ION

Rechargeable Battery Pack

Model Number: LB-2AH

**USER
MANUAL**

IMPORTANT SAFETY INSTRUCTIONS

-SAVE THESE INSTRUCTIONS-

WARNING! To reduce the risk of injury, read this manual and the user manual originally supplied with the charger and Mueller Garden LB-570 Leaf Blower power tool before charging and using this battery.

TEHNICAL DATA:

Rechargeable (Li-ION)
Battery

Nominal Voltage:
20V

Capacity:
2.0Ah

Charging Time:
1 hour

 Direct Current

Do not expose the battery to strong sunlight for extended periods and do not place on radiators. (Max 140°F).

Do not throw the battery into household rubbish, fire or into water.

Return rechargeable batteries to a battery collection site, where they can be recycled in an environmentally friendly manner.

IMPORTANT SAFETY WARNINGS:

- Do not store or use the battery pack in locations where the temperature may reach or exceed 105°F (40C°) (such as outside sheds or metal buildings in summer).
- When not in use, keep away from metal objects like nails, screw, coins, or other small objects that may connect one terminal to another.
- Do not use a battery that is damaged or modified as it may exhibit unpredictable behavior resulting in fire, explosion, or risk of injury.
- Do not charge or use the battery in explosive atmospheres, such as in the presence of flammable liquids, gases, or dust. Burn hazard.
- Do not splash or immerse in water or other liquids. This may cause premature cell failure.
- If the battery cracks or breaks, whether it leaks or not, do not recharge it and do not use. Dispose of it and replace with a new battery. Do not attempt to repair! If a leak develops, the electrolytes that are released are corrosive and toxic.
- If battery contents come in contact with the skin, immediately wash area with mild soap and water. If battery liquid gets into the eye, rinse water over the open eye for 15 minutes or until irritation ceases. Seek medical attention if irritation persists.
- Contents of opened battery cells may cause respiratory irritation. Provide fresh air. If symptoms persist, seek medical attention.

CHARGING:

⚠ WARNING Charge the battery pack with MuellerGarden LI-ION compatible chargers only. Using an unsuitable charger creates a fire risk.

- Before first use, fully charge the battery.
- The battery can be charged at any power level, there is no memory effect.
- Do not allow the battery to fully drain, as this can result in reduced performance.
- The battery will become hot with use. **Allow the battery to cool before recharging.**
- **Do not charge the battery for more than 5 hours at a time.**
- Do not briefly charge the rechargeable battery several times consecutively.
- **IMPORTANT: The charge of the battery will diminish, even when not used. We therefore recommend regular charging every 4-6 months.**
- Store the battery fully charged.

ENVIRONMENTALLY SAFE BATTERY DISPOSAL

This battery contains the following toxic and corrosive material: LITHIUM-ION.

⚠ WARNING Toxic materials must be disposed of in a specified manner in order to prevent contamination of the environment. Before disposing of spent Lithium-Ion batteries, contact your local waste disposal agency for information and specific instructions. Take the batteries to a local recycling and/or disposal center that is certified for disposal. The improper disposal of this type of waste may fall subject to national regulations for fines.

DO NOT incinerate the battery pack, even if it is badly damaged or completely spent, because it can explode on contact with flames. Toxic fumes and materials are created when battery packs are burned.
